

Version number: 1

Declaration of consent for changing the reference community of an electronic patient record (EPR) at Post Sanela Health Ltd (operator organisation of the Sanela reference community)

Surname:									
First name:									
Date of birth:									
Gender: (male/female/other)									
Street									
Postcode and place of residence:									
Country:									
Email address:									
Mobile phone number:									
Name of the current reference community (reference community of origin):									
Name of the electronic identity provider (IdP):									
OASI number (13 digits):									

I confirm that I already have an EPR in a different reference community. I authorise Post Sanela Health Ltd to approve the change of the EPR of the current reference community. Under the Swiss Data Protection Act, I have a comprehensive right to information and to obtain the correction or incorrect data. I acknowledge the GTC of Post Sanela Health Ltd and the information brochure concerning the EPR. After my request, Post Sanela Health Ltd will contact my current reference community to ask them to grant access to my EPR. Post Sanela Health Ltd will then assign new access rights to me. After that, I will be able to link my electronic means of identification with my EPR, with the help of the temporary access code that I receive from Post Sanela Health Ltd, and connect to my new EPR.

Further information on changing the reference community:

- My medical documents and data which are stored by specialists and health professionals in my EPR will be retained.
- Conversely, I have to download the data which I stored in my EPR myself and then upload them again to my new EPR.
- I cannot access my EPR while the change is being implemented.
- I should reassign the access rights that I would like to grant to the specialists.

The declaration of consent will take effect as soon as the necessary access authorisations have been set up on the respective EPR.
